MODERNISATION FUND
Accelerating the transition to climate neutrality

MODERNISATION FUND **EIB CONFIRMATION OF PRIORITY INVESTMENT**

ref. MF 2022-2 SK 0-002

Beneficiary Member State: Slovakia

Investment Proposal: State aid scheme for the decarbonisation of industry from the Modernisation fund.

1. Background

The Modernisation Fund was set up pursuant to Article 10d of Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a system for greenhouse gas emission allowance trading within the Union and amending Council Directive 96/61/EC (the “ETS Directive”).

The legal basis for the operation of the Modernisation Fund is set out in the Commission Implementing Regulation (EU) 2020/1001 of 9 July 2020 laying down detailed rules for the application of Directive 2003/87/EC of the European Parliament and of the Council as regards the operation of the Modernisation Fund supporting investments to modernise the energy systems and to improve energy efficiency of certain Member States (the “Implementing Regulation”).

In accordance with Article 10d(6) of the ETS Directive, the European Investment Bank (the “EIB”) is to confirm whether a proposed investment falls into a priority area. The EIB may confirm the proposal as a priority investment if the conditions specified in Article 6(7) of the Implementing Regulation are met.

2. Investment proposal

Pursuant to Article 4(1) of the Implementing Regulation, on 13/09/2022, Slovakia (the “beneficiary Member State”) submitted to the EIB an investment proposal “State aid scheme for the decarbonisation of industry from the Modernisation fund” for which it envisages a contribution from the Modernisation Fund (Modernisation Fund reference number MF 2022-2 SK 0-002).

The scheme will support projects that will ensure a significant increase in energy efficiency in the energy intensive sector:

- installation and modernisation of technologies to reduce GHG emissions in the production and processing and introduction of BAT (Best Available Technology) into industrial processes;
- measures concerning changes in technological processes and configuration in order to reduce energy consumption and GHG emissions.

The beneficiary Member State has requested funding of EUR 750 000 000, with first disbursement of EUR 350 000 000.

3. Compliance with the conditions for priority investment

- a) The beneficiary Member State has demonstrated that the investment complies with the requirements laid down in Article 10d(1) of the ETS Directive as it supports the modernisation of the energy system and it is in line with the objectives and measures set out in its NECP.
- b) According to the information provided by the beneficiary Member State and pursuant to Article 10d(2) Directive 2003/87/EC, the investment is considered as a priority investment as it falls under the priority area “the improvement of energy efficiency”.
- c) The beneficiary Member State has sufficient funds available for the requested disbursement according to the statement of the available funds referred to in Article 5(1) of the Implementing Regulation and after deduction of any amounts to be disbursed for investments already confirmed in accordance with Article 6(9) of the Implementing Regulation.
- d) The beneficiary Member State has provided evidence that the investment proposal:
 - has obtained state aid clearance in accordance with the Commission decision.
- e) The beneficiary Member State has confirmed in writing that the investment complies with any other applicable requirements of Union and national law.
- f) According to the information provided by the beneficiary Member State, the amounts requested from the Modernisation Fund are not intended to cover the same costs of the investment as those financed by another Union or national instrument.

4. Conclusions

The EIB has assessed the investment proposal based on the information submitted by the beneficiary Member State in accordance with Article 4 and Annex 1 of the Implementing Regulation and it has concluded that the investment proposal has met the conditions specified in Article 6(7) of the Implementing Regulation.

In view of the above, and in reliance on the information and evidence provided and the confirmations given by the beneficiary Member State, as described in paragraph 3 above, the EIB confirms the proposal “State aid scheme for the decarbonisation of industry from the Modernisation fund” (MF 2022-2 SK 0-002) as a priority investment.

This confirmation is without prejudice to the requirement for a disbursement decision to be made pursuant to Article 10d(3) of the ETS Directive.
