MODERNISATION FUND

Accelerating the transition to climate neutrality

MODERNISATION FUND **EIB CONFIRMATION OF PRIORITY INVESTMENT**

ref. MF 2024-2 PL 0-005

Beneficiary Member State: Poland

Investment Proposal: Support for the purchase or leasing of zero-emission vehicles of the N2 and N3 categories

1. Background

The Modernisation Fund was set up pursuant to Article 10d of Directive 2003/87/EC of the European Parliament and of the Council of 13 October 2003 establishing a system for greenhouse gas emission allowance trading within the Union and amending Council Directive 96/61/EC (the “ETS Directive”).

The legal basis for the operation of the Modernisation Fund is set out in Commission Implementing Regulation (EU) 2020/1001 of 9 July 2020 laying down detailed rules for the application of Directive 2003/87/EC of the European Parliament and of the Council as regards the operation of the Modernisation Fund supporting investments to modernise the energy systems and to improve energy efficiency of certain Member States (the “Implementing Regulation”).

In accordance with Article 10d(6) of the ETS Directive, the European Investment Bank (the “EIB”) is to confirm whether a proposed investment falls into a priority area. The EIB may confirm the proposal as a priority investment if the conditions specified in Article 6(7) of the Implementing Regulation are met.

2. Investment proposal

Pursuant to Article 4(1) of the Implementing Regulation, on 10/09/2024 Poland (the “beneficiary Member State”) submitted to the EIB an investment proposal “Support for the purchase or leasing of zero-emission vehicles of the N2 and N3 categories” for which it envisages a contribution from the Modernisation Fund (Modernisation Fund reference number MF 2024-2 PL 0-005).

The investment proposal concerns a large-scale scheme for the period 2025-2029 relating to the replacement of N2/N3 petroleum trucks by electric ones.

The beneficiary Member State has requested funding of EUR 50 000 000 for a first disbursement under the proposed large-scale scheme.

The beneficiary Member State has indicated a total expected Modernisation Fund funding for the investment proposal of EUR 481 930 000.

The main objective of the investment is to increase energy efficiency and to reduce energy consumption in the transport sector by replacement of N2 (3.5 t to 12 t) and N3 (>12 t) categories combustible engine trucks by electric ones.

The scheme is aligned with the objectives of the objectives of the Climate Plan (NECP) for Poland.

3. Compliance with the conditions for a priority investment

- a) The beneficiary Member State has demonstrated that the investment complies with the requirements laid down in Article 10d(1) of the ETS Directive as it supports energy efficiency and it is in line with the objectives and measures set out in its NECP.
- b) According to the information provided by the beneficiary Member State and pursuant to Article 10d(2) Directive 2003/87/EC, the investment is considered as a priority investment as it falls under the priority area c) the reduction of overall energy use through energy efficiency in transport.
- c) The beneficiary Member State has sufficient funds available from allowances referred in Article 10(1), the fourth subparagraph of Directive 2003/87/EC – 2.5% for the requested disbursement according to the statement of the available funds referred to in Article 5(1) of the Implementing Regulation and after deduction of any amounts to be disbursed for investments already confirmed in accordance with Article 6(9) of the Implementing Regulation.
- d) The beneficiary Member State has provided evidence that the measures under the investment proposal:
 - are exempted from the State aid notification in accordance with applicable State aid rules (SA. 112748).
- e) The beneficiary Member State has confirmed in writing that the investment complies with any other applicable requirements of Union and national law.
- f) According to the information provided by the beneficiary Member State, the amounts requested from the Modernisation Fund are not intended to cover the same costs of the investment as those financed by another Union or national instrument.
- g) According to the information provided by the beneficiary Member State, the duration of the scheme does not exceed five years.

4. Conclusions

The EIB has assessed the investment proposal based on the information submitted by the beneficiary Member State in accordance with Article 4 and Annex 1 of the Implementing Regulation and it has concluded that the investment proposal has met the conditions specified in Article 6(7) of the Implementing Regulation.

In view of the above, and in reliance on the information and evidence provided and the confirmations given by the beneficiary Member State as described at paragraph 3 above, the EIB confirms the proposal “Support for the purchase or leasing of zero-emission vehicles of the N2 and N3 categories” (Modernisation Fund reference number MF 2024-2 PL 0-005) as a priority investment.

This confirmation, being based in part upon an exemption from State aid notification that is limited in time, is made on the assumption that the investment proposal, if it constitutes State aid after the expiry of such time limit, will continue to be exempted from State aid notification or that the beneficiary Member State will either obtain State aid clearance or cease to finance the investment proposal with Modernisation Fund funds at that time.

This confirmation is without prejudice to the requirement for a disbursement decision to be made pursuant to Article 10d(3) of the ETS Directive.
